Maksym Andriushchenko

UI\UX Engineer, Frontend Developer
based in Łódź, Poland

// About me

I am a designer and developer with three years of experience. I've worked on various projects and startups, creating functional and impressive solutions.

My approach blends creative thinking with technical skills, ensuring efficient designs. I strive for excellence, follow modern trends, and use cutting-edge technologies to achieve top results.

// Work Experience

2022 — Present

Full Stack Developer
Remote / Freelance

After delving into frontend development, I participated in a variety of projects, from creating landing pages and e-commerce sites to working on a sports aggregator.

2022 — Present

UX/UI Designer at NextWeb
Remote

Following my success in web design, I started tackling more complex tasks. I closely collaborated with the development and marketing departments to achieve the best results.

2021 — 2022

Web Designer
Freelance

After gaining substantial experience working with clients, I transitioned to web design, creating simple landing pages and websites.

2020 — 2021

Graphic designer
Freelance

My professional journey began as a graphic designer. I handled various projects, including the development of promotional materials, packaging, and logos.
